as required.

PRECUT SOLUTIONS

INSTALLATION - HOW WE CAN HELP

QUICK & RELIABLE

✓ FASTER INSTALLATION TIME

Our pre-cut support systems are delivered all ready for installation, therefore reducing time spent assembling on site.

✓ RELIABILITY

Our system work is scheduled so it can't be affected by any restrictions or conditions on site.

✓ CONSISTENCY & QUALITY

Every order is quality checked thoroughly before dispatch and procedures are followed in production to ensure consistency across all systems.

✓ VALUE FOR MONEY

Our Pre-cut solutions off-site is a lot more cost effective than attempting to cut, assemble and use your own tools on-site.

SAVE \$\$ & SAFER

✓ SITE DELIVERIES

No small deliveries needed for fixings and extra parts as all included in bulk pre-fabricated package, which means less time spent on planning and checking for deliveries.

✓ LABOUR TIME

At Powagroup, we do the pre-cutting & fabrication in-house skillfully, saving your tradespeople time to focus on their job & what they are best at.

✓ LESS WHS ISSUES (WORK HEALTH & SAFETY)

Don't need to cut on site. Eliminate the risk of onsite cutting errors, saving valuable time and money that would otherwise be wasted.

✓ SPACE USED ON SITE

Storage for materials and designated fabrication areas can be massively reduced.

OUR RANGE

CABLE TRAY SYSTEMS

CABLE TRAY SYSTEMS

Our Cable Tray Range offers a complete selection tailored to various needs. Whether you're dealing with heavy cables, tricky routing setups, or simpler installations, we've got you covered with options that are sturdy, adaptable, and easy to use.

PT3 CABLE TRAY

- Strong, versatile & easy to install
- Premium performance for commercial & light industrial electrical projects

POWAMESH

- Flexible & lightweight solution with an open-weave design
- Easy access and simple installation

NEMA CABLE LADDER

- PowAGroup's steel cable ladder range is designed to be a cost effective cable support system for high volumes of heavy weight cables. They can support very high loads, over long spans and provide cable laying depths from 43 up to 135mm.

We also offer powder-coated trays and fire-rated trays to suit specific project requirements.

PT3 CABLE TRAY

KEY FEATURES

PT3 Cable tray provides premium performance for commercial & light industrial electrical projects.

Strong, versatile & easy to install, its excellent performance characteristics combined with a visually appealing profile has made it the highest regarded tray product in the electrical industry.

Manufactured to the following AS standards:

- Pre-Galvanised to AS1397
- Hot Dip Galvanised to AS/NZS4680; ISO1461

KEY FEATURES

Tested in accordance with the Nema requirements.

Flexible & lightweight solution with an open-weave design.

Cable Laying Width (mm)	Product Code
75mm x 3 mtrs	08MCT75
150mm x 3 mtrs	08MCT150
300mm x 3 mtrs	08MCT300
450mm x 3 mtrs	08MCT450
600mm x 3 mtrs	08MCT600

Load in kg/m per support centres (mm):

Span	1500mm	2000mm
Load Rating	111kg/m	62kg/m
Deflection	22mm	29mm

The data displayed is based on physical test results of a 600 wide section and may vary for other widths.

The Deflections have been provided as a guide based on continuous spans, and cannot be applied to end spans.

Data provided assumes that the installation will be carried out in accordance with Nema VE2. Non compliance may affect the overall product performance.

Span	2500mm	3000mm
Load Rating	40kg/m	27.87kg/m
Deflection	41mm	51mm
